

Kapakapanui School

Digital Citizenship/BYOD Agreement 2023

Digital technologies are tools that can help us learn at school in all sorts of ways.

When we use digital technologies and online spaces it's important that we learn ways to keep ourselves safe, and that we make positive choices in ways we behave when we are online. At Kapakapanui School we call this being a 'digital citizen' and good digital citizens help to make our school a safe and positive place for everyone.

This agreement shares what Kapakapanui School does to help make learning online safe, and what you need to do.

Kapakapanui's role

Kapakapanui supports you by helping you learn in the best ways we can, and keeping you safe at school whether you are online or offline.

We will do this by:

- making everybody aware of their responsibilities
- planning times in the terms to learn about positive online behaviours and ways to keep safe
- overseeing students' use of school's digital devices and online spaces
- offering access to the internet and online platforms
- using filtering software to protect everybody
- protecting your rights to a safe and positive online environment
- providing opportunities to use digital technologies in the learning at school
- having a plan to help you when something serious or illegal happens that involves digital technology or online spaces.

Your responsibilities

As a student of Kapakapanui School and also part of our community, we ask you to help make our school a place that is safe, friendly, and fair. This means taking our school values and acting on these whether you're online, or offline, and help to make our school a positive place to learn, connect and play. This is being a 'digital citizen'

As a digital citizen, you will:

- **Keep it kind.** Think about others online and talk or share in respectful ways.
- **Keep it to yourself.** Keep passwords and information about yourself and other people private and offline.
- **Keep it careful.** Because things you do or say online can be seen by others, be careful to share the things you can feel proud of, or would be happy sharing with someone face to face.
- **Keep it positive.** Always respect others online and communicate in a positive, respectful way.
- **Post with caution.** Anything you post or do online can influence what people think of you. Put your best foot forward online.
- **Consent.** Check with others and ask for their consent before posting images.
- **Don't believe everything you see.** Always think carefully about the information you see online – not everything is true. If you are unsure of something, talk to a teacher.
- **Avoid online bullying.** Creating or forwarding content that is harmful or hurtful towards someone else is not okay at any time.
- **Be security smart.** Keep personal information secure by using strong passwords and not sharing them with other students. Always log out of a site, or device. Get permission before downloading software/apps to the

school network or connecting new devices.

- **Respect others' rights.** Always ask first if you need to use someone else's device, online sites, and their image, ideas, creations or work that's stored online. Only log on using your username and not allow anyone else to use your username or account.
- **Recognise others' work.** When we use or take others' work or ideas from the internet, we need to make sure we copy or use these in ways that are okay because there are rules about this.
- **Seek help.** Sometimes you or someone you know will feel unsafe or come across bad or harmful content online. If this happens talk to a trusted adult about what can be done
- **Use the internet appropriately.** Only access the Internet , including the use of email for learning purposes during school hours. Only search for things online that you know are acceptable. This means nothing that is rude, violent or uses unacceptable language. BYOD devices are only to be used during class time or at the discretion of the teacher.
- **Treat all school ICT equipment and devices with respect and care.** Devices bought from home are my responsibility as the school holds no responsibility for any loss or damage which might occur. Kapakapanui School is not responsible for the repair or maintenance of devices bought from home.

ONLINE INCIDENTS

This section outlines how students can seek support and assistance if they encounter any online concerns

Despite the good things technology offers and people's best intentions, sometimes things will go wrong. Sometimes these things are on purpose, and sometimes they are accidents. Kapakapanui School will support you if something goes wrong online.

Online bullying. Online bullying is not accepted at our school. If you or somebody else is being bullied or criticised online, report it. Keep the content so we can investigate it. Stop any further contact with the person who is bullying. You can report to the Principal, your teacher and your parents for help. It's important to think about sharing what's happened with a trusted adult like a parent, a member of your whānau, or someone else who looks after you.

Report a problem. We need your help to keep our school safe. If you see something on the school systems that you don't think should be there, we need you to report it as soon as you can to Kapakapanui School Principal or your Teacher. This is really helpful and important, so that the school can find out what the problem is and fix it as soon as possible, and help those who might need it.

Online safety support. Netsafe is our New Zealand online safety organisation that is able to help when things go wrong online, when we have problems with content or negative things that others are doing online. They provide free, private advice for you and your family seven days a week for all online safety challenges. They can be contacted on 0508 638723 or online at [netsafe.org.nz](https://www.netsafe.org.nz)

STUDENT STATEMENT

I know about the ways I should use digital devices and online spaces at school for learning. I know that I should be kind, careful and responsible when I use devices, and when I go online, and this is the same for the devices that school owns, or if it is my own device that I bring to school.

I know that if I behave in ways that are not safe online, or kind or responsible, that this is not okay at Kapakapanui School. There may be some actions that my school might have to take, such as not being able to use the school device or a device I have brought from home.

I understand and agree to use digital technology and the internet at school safely and for learning, whether it is on a school device or one I have brought from home.

Signed:
